

- ✓ **“Christ Jesus came into the world to SAVE sinners”**
- ✓ **“Christ died for our sins .. and .. was buried .. and .. rose again”**

Jesus (God's Son) paid the penalty for all of OUR sins against God. He conquered death, and is alive today to save anybody who calls upon Him.

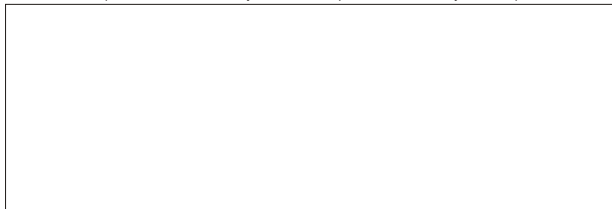

**"For whosoever shall call upon the name of the LORD shall be saved"**

Pray a prayer similar to this:

***“Lord Jesus, I realise that I have sinned against God; for this I am genuinely sorry. Thank you for dying on the cross to pay for my sins. I believe in my heart that you rose from the dead, and I now ask you to forgive all my sins, come into my life and save me for eternity. Amen.”***

**Monkey<sup>™</sup>  
business**

**If a blindfolded monkey** was to randomly hit the keys on a computer keyboard, it would never in five billion years produce a complex computer program.

Yet, many have been led to believe that the earth with all its complex life-forms, and even the whole universe itself, came into existence in a similar way - billions of years of accidents, mutations and blind chance - chaos to order - simple to complex - onward and upward by some mystical evolutionary process. But, where is all the evidence for this idea?

Since Charles Darwin popularised the theory in the mid-1800's, not one scrap of evidence has been found. There are thousands of scientists today from all fields of science who totally reject the claims of Evolution. They admit that there are **no** reliable dating methods to date the rocks and fossils, because major assumptions have to be made to calculate dates. **Mutations** and **Natural Selection** cannot produce the **new** genetic information required to give rise to new "kinds", but these simply damage or reshuffle the existing genes to adapt the organism.

Almost all the so-called evidences for evolution have now been falsified and struck off the list. Some of the "*missing links*" for instance, were proven decades ago to be hoaxes and even deliberate legal fraud.

**And yet they still appear in the textbooks today; Why?**

Why is the young generation of our day not told that there is **another** viewpoint which is far more credible and scientific,

and that fits more readily with the observable facts. Modern science and technology has only proven that life could **not** have evolved by chance. It is far too complex!

You see, **Evolution is not a science** - it's a philosophy about the past. In fact, it is merely atheistic propaganda that is being forced upon our society in an attempt to explain how everything got here without a Creator. Life and the universe are not the result of a Big Bang - that's just a belief, not science; after all, who was there 20 billion years ago (*supposedly*) to observe it happening?

**Look into a telescope or a microscope, and all you will see is evidence of intelligent design.**

The obvious conclusion to come to is that an infinitely intelligent and personal Being created, designed and programmed life and the universe.

**Every FACT of science supports this.**

The Bible declares that this personal Being who created all things is "God". God is described as One who is of infinite intelligence and supreme LOVE, and has a personal interest in us all.

The Bible records some more FACTS:

- ✓ **"All have sinned and come short of the glory of God"**
- ✓ Sinners shall be **"punished with everlasting destruction from the presence of the Lord"**
